September 3, 2020

Dear Parents,

I hope everyone is enjoying the last days of summer and is looking forward to starting school, whether it be in person or remotely.

Please discuss with your child the need to update and charge their Ipad before school starts. Please be sure that your child has access to their RVC email account. For any problems please go to Studentsupport@rvcschools.org for help.

For those students who will be coming into school, we have put a new policy into place for entering the building. Bus students, who will have their temperatures taken by matrons on the busses will come directly into the lobby. They will be directed to the Auditorium or the Cafeteria where they can attend Extra Help remotely, while socially distancing.

Students who are walkers or are driven to school, may enter the building from the front doors or the west side door (by parking lot) where they will be met by security or a staff member who will take their temperature before entering. If a student registers a temperature, the nurse will be notified and the student will be directed to the “isolation” room. They will stay in this room until a parent comes to pick them up.

We have taped the hallways to indicate the appropriate distance students will need to adhere to, as well as to remind them to stay to right side of the hall. We have also posted arrows to indicate up or down staircases.

All students will be required to wear masks, although we do have “mask break” policies in place for those students who will require it.

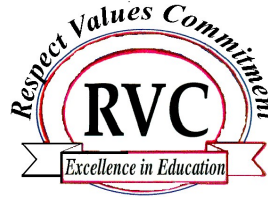

We are all working hard to successfully navigate this very unprecedented time. We ask that you discuss all of these changes with your child to make our opening as smooth as possible. We thank you for your cooperation and help. We are one community, SSMS Strong!!

Sincerely,

Rockville Centre Union Free School District
